

MAKE YOUR VIEW KNOWN ON THE PROPOSED RE-DEVELOPMENT OF THROCKLEY RESERVOIR

You may (or not) be aware of the proposal to build residential properties **ON TOP of the existing** Henderson Filter Treatment Works on Hexham Road.

You didn't? This is because many of the residents affected by this development, especially those of Hexham Road, **were NOT notified** of the public consultation event held on Wednesday 13th February in Throckley Primary School. The few residents who did attend were appalled at Esh Group, the developer's, proposed planning application and made their views known that the design is not in keeping with the existing environment and needs to be urgently reviewed.

Councillors Linda Wright, (tel: 267 3562) and Mike Lynch (tel: 264 1376) have also expressed their concern. If you have not had the opportunity to **HAVE YOUR SAY** then come and meet them and other concerned Throckley Residents, Get the facts and make your feelings known!! Meet this **SATURDAY 16th February at 11.00 am in Newburn Library.**

PLEASE COME ALONG - WE MUST OPPOSE THIS APPALLING, INAPPROPRIATE PROPOSED DEVELOPMENT BEFORE IT'S TOO LATE!!!!

Circulated by Throckley Residents who are in favour of a development **in keeping with the existing environment** but are opposed and appalled at the proposed planning application by Esh Group **which needs to be urgently reviewed.**
