

Copy of email from Paul Hancock, NCC dated 27.03.08

Dear Kathleen, your e-mail about the proposals for development and the consultation process has been passed to me.

I note what you say about the process so far. From my perspective of several meetings with officers from the developers and their agents, I do believe the lack of consultation with residents near to the site was a genuine mistake, as they were keen to involve local people in the development of their scheme.

Nevertheless as far as the planning process is concerned the Council will be carrying out a full public consultation process when the planning application is received. I am also aware of the forthcoming residents meeting and either myself or my colleague Lucille Alder will be able to attend the Tuesday evening meeting if you can advise me of the details of where and when the meeting is to take place.
